CHARACTERISTICS

COMFORT

- **Stretcher type** transport support
- **Ergonomic** dimensions
- **Activated carbon filter** for helmet supply
- **Integrated** air helmet socket

ECONOMY

- **Sandblasting setting**
- High resistance **integrated air purifier**
- Tank with **optimized capacity** of 70 liters
- Tank operating pressure at 10 bar

SECURITY

- **Easy access** hatch
- **Remote control** system
- **Automatic** closing
- **Protection** of the closing cone

**Water separator
Helmet socket
with activated
carbon filter**

**Stretcher and
protection of
controls**

**Abrasive flow
control valve**

**Protection of the
closing cone**

EQUIPMENTS

READY-TO-USE SANDBLASTER KIT

- S70 sandblaster with remote control
- Complete piping (10m - ø19)
- Carbide nozzle ø6,5
- Shot blasting helmet with window
- Helmet supply hose (10m - ø13)

OPTIONS

- Carbide nozzle ø8 for compressor (from 3500 to 4000 l/min)
- Carbide nozzle ø5 for compressor (2500 l/min)
- Air purifier for high humidity
- Sandblaster with complete piping 20m

**SHOT
BLASTING
HELMET
WITH WINDOW**

**AIR
PURIFIER**
